Meeting ID: 426 725 3144

2024 had seen some promising advances in prostate health. We will discuss some of them. Including a new way to determine 3+4=7 Gleason Score potential for progression and new ways to deal with metastasized prostate cancer among other topics.

PAF Zoom Meetings are a great way to connect with those with similar concerns, compare notes and learn from each other! We invite you to ask about your specific prostate health concerns. PAF Zoom meetings provide an opportunity to meet and talk with other men from all over the country who are also dealing with prostate issues. Our membership includes men with prostatitis, BPH, early and late-stage prostate cancer as well as men with a family history of cancer wanting to avoid problems in later life. Friends, family and loved ones are always welcome. **NOTE: Join the meeting using the [blue link](#) below or visit www.prostateawarenessfoundation.org to access the meeting details on the home page to listen and participate.**
